

To Whom It May Concern,

I am writing to offer my professional recommendation for **Peter Mendham** for a teaching position in technology at the secondary school level.

I am the Department Head of Technology at St. Joseph's Catholic High School in St. Thomas, Ontario, and I have had the opportunity to work with Peter over the semester.

Peter is an exceptionally effective communicator. He clearly and confidently explains concepts in both classroom and lab settings, and he excels when working with groups of students. He builds strong, respectful relationships quickly, particularly in hands-on lab environments, which contributes to a positive and productive learning atmosphere.

One of Peter's strongest qualities is his commitment to student success. He consistently goes the extra mile to support students who are struggling, offering additional guidance and encouragement while maintaining high expectations. He also has excellent classroom management, and it is very evident the respect he achieves from the students.

Based on my experience working with Peter, I am confident that he would be an asset to any secondary school technology department.

Furthermore, Peter brings a calm and friendly presence to the school and has fit in extremely well within our department.

Please feel free to contact me should you require any additional information.

Sincerely,

Kent Cherevaty

Department Head of Technology

St. Joseph's Catholic High School

St. Thomas, Ontario
